We do not in any way guarantee that you will be entitled to any admission ticket to any event under the Annual Event Pass, nor do we guarantee your or the ticket holder's admission to or participation of any event with the admission ticket. 5. Money-Back Guarantee

- (a) The Money-Back Guarantee may only be applicable when you subscribe to designated Gamer Pack service.
- (b) The Money-Back Guarantee is only applicable for the Round-trip Latency measured from your NETVIGATOR Broadband Line using your Computing Equipment for access to our specified server location(s) of the relevant Game Provider, published on the NETVIGATOR's list of benchmark

destinations as set out in the Gamer Pack Website. The specified server location(s) of the relevant Game Provider will be the farthest reachable server along the connection path that can respond to the Round-trip Latency measurement using tools with ICMP (Internet Control Message Protocol) (e.g. ping, traceroute).

- (c) You will be entitled to the Money-Back Guarantee if you can provide to us documentary proof as set out in the Gamer Pack Website supporting the followings to our satisfaction:
- (i) that with the use of your Computing Equipment, the captured Round-trip Latency (with other measurement data, such as the date and time, clearly stated) to any designated Game Server is consistently greater than the slower end of the Guaranteed Round-trip Latency within at least two (2) consecutive hours, with (AA) one measurement captured at the start of that period; (BB) one measurement captured at the end of that period; and (CC) such number of measurement(s) captured in between during that period, with each of such measurement(s) captured at 60 minutes or shorter from the last measurement; and
 - (ii) the Ethernet cable connecting your Computing Equipment to our network CPE that is used for the Round-trip Latency measurement must be in good condition, meet the Category 5 enhanced (Cat5e) or above cable specifications and free of cable fault or interference, and the total cable length for the Ethernet cable must not exceed 100 metres, with no repeaters in between.
- (d) The Round-trip Latency must be measured with your Computing Equipment connected directly to our network CPE via a wired connection, without any third party router or like equipment in between.
- (e) Only one (1) claim under the Money-Back Guarantee may be made in any 24-hour period. For example, if you are making a claim in relation to the 2-hour period from 11 pm to 1 am on Day 1, you will not be entitled to make the next claim until 11 pm or after on Day 2.
- (f) To make a claim under the Money-Back Guarantee, you are required to complete and submit to us via the Gamer Pack Website a designated claim form (available on the Gamer Pack Website), together with documentary proof as required under Clause 5(b), within seven (7) Business Days from the date when your captured Round-trip Latency was measured. We aim to respond your claim within 10 Business Days. You may be required to submit further documents in support of your claim to our satisfaction.
- (g) If we are satisfied that your submitted claim is valid, we shall refund to you double the amount of the monthly service fee for the Service for one (1) day for each claim, calculated pro-rata based on a 30-day per month for each claim (rounded up to the nearest 10 Hong Kong cents after doubling). For example, if your monthly service fee for the Service is HK\$68, you will be entitled to HK\$4.60 (being HK\$68 / 30 day x 2, rounded up to the nearest 10 cents) money-back amount for any one valid claim.
- (h) While you may make multiple claims within any one month (one month based on your monthly billing period), the total money-back amount in any such one month shall not exceed the monthly service fee of the Service payable for that month. The money-back payment shall be credited to your subsequent monthly bill.
- (i) The Guaranteed Round-trip Latency does not cover the following circumstances in which the results of Round-trip Latency are affected by :
- (i) outages or other incidents, such as server busy, overcrowded, network congestion, links down etc., on the Game Server of our designated Game Provider and/or third party network outside the control of us or our Affiliates or business partners;
 - (ii) outages or other incidents caused by unavoidable accidents, such as any Force Majeure Event, riots, crime or as result of the negligence or malfeasance of a third party outside the control of us or our Affiliates or business partners;
 - (iii) any inaccessibility to Game Server of our designated Game Provider caused by the Game Provider's owned IP address being blocked by third parties;

- (iv) performance measurements captured for access to servers which are not our designated Game Providers'; and/or
 - (v) performance measurements captured on broadband services other than under your NETVIGATOR Broadband Line.
- (j) The Guaranteed Round-trip Latency and our designated Game Servers under the Service are published on the Gamer Pack Website and are subject to change by us from time to time.
